**Subject:** Last night...

Steve,

Every time we book you for a function I wonder how I'll find it... you see I'm used to your stuff being brilliant. And that's the trouble when brilliant becomes the benchmark it is very hard to become brillianter the next time...

Well, you did it.

Your input turned it from a great dinner to a stunning evening.

You gave my guys a lesson in attention to detail and passion for the product.

Each course was a delight. We achieved the theme of 'the ordinary done in extra-ordinary ways...' and then surpassed it... Everyone loved the humour in the interpretation of 'comfort dishes' ... and our vegetarians felt well catered for... Mike said 'It's like someone cared.'

The 'pies 'n peas' by the way were an absolute hit. They seem to be the 'most commented on' ... The pastry was so light and the filling full of flavour. And the peas were so fresh... great... The steak was great too ... actually it was all above and beyond...

And once again I must complement your guys on the condition they left the place. There is not a trace that we tuned the hall into a kitchen for 20 covers... It's probably cleaner and neater than when they moved in. It's the same in the office where they staged the bar. It was a very simple job today to turn the place back into an office...

Thanks once again. Pass the comments on

Cheers

Andrew Millar
